April 1864

Rochester, Minnesota is one of the largest inland villages in the state

It has a population of 2000 & is the centre of influence for Southern Minnesota

A Church planted there will be the germ of many organizations around it & secure the rapid spread of Presbyterianism in that frontier section - a region that ~~now~~ but with a population of over 50,000 within a circle of 40 miles from Rochester, has not a single Church building belonging to Presbyterians (O.S.) & but one belonging to the N.S. Pres

over

But a Church building is indispensable to the efficiency & success of our Church there. Other denominations have received funds from the east, with which they are now building substantial houses. — The Presbyterian Church alone is without a home.

To build a house such as is needed will require 5,000$

So urgent & pressing are the necessities of the case & so vital to the interests of presbyterianism in that large & growing missionary field, that the Presbytery with which the Church is connected, — the Ministry of the neighboring presbyteries & distinguished ministers of other portions of our Zion, acquainted with the state of the case

unite in earnestly commending this object to the Christian public.

Therefore we, the undersigned Ministers, having examined the papers of the Rev S Jackson & having both confidence in him & a warm interest in the success of his mission, do commend both him & his Mission to the earnest attention & large hearted liberality of our people.

W. W. Phillips
